SEYMOUR JOHNSON AIR FORCE BASE (SJAFB)

The proud home of the 4th Fighter Wing and the 916th Air Refueling Wing, which flies the F-15E Strike Eagle jet and the KC-135R Stratotanker, the Base has an intricate history within and around Goldsboro and Wayne County. First activated in 1942, the installation was named in honor of U.S. Navy Lt. Seymour A. Johnson, a Goldsboro native, who was killed in March 1941. By 1944, the primary mission of the base was to train P-47 Thunderbolt pilots.

Following World War II, the base was inactivated. In 1954, Goldsboro Mayor, Scott B. Berkley Sr., and a group of business leaders successfully lobbied to have the base reopened. A ground-breaking ceremony was conducted in 1955; Seymour Johnson was reactivated in April 1956 and officially reopened on July 8. Two years later, the storied 4th Fighter Group, then known as the 4th Fighter Day Wing, arrived.

In 2001, former Department of Defense Secretary Donald H. Rumsfeld named SJAFB the winner of the 2001 Commander-In-Chief's Award for Installation Excellence. The award recognizes outstanding and innovative efforts of the people who operate and maintain U.S. military installations. As one of five recipients of this award, SJAFB was selected for its exemplary support of the Department of Defense mission and received \$1.1 million in base improvements.

Base tours, which are offered the 4th Thursday of every month, are free and open to the public. To secure a spot on the tour or for more information, call (919) 734-7922.

THE GOLDSBOROUGH BRIDGE BATTLEGROUND

The battlefield is the site of the battle of Goldsborough Bridge, where on December 17, 1862, some 2,000 Confederate forces attempted to stop Union General John Foster's 12,000 troops from destroying a vital railroad bridge. The bridge was a key position for both Union and Confederate forces. Walking trails take visitors to nine additional historical markers where specific events of the battle are detailed. Two sets of well-preserved earthworks may be viewed, as well as the site of the Wilmington & Weldon Railroad Bridge. Re-enactments are held on the site every two years.
